Important notes about your vehicle

Electric vehicle precautions

**WARNING: HIGH VOLTAGE.** The Tesla Roadster™ has both AC and DC high voltage systems in addition to a normal 12V DC system. High voltage is very dangerous and can cause personal injury including electric shock, severe burns and even fatal injury. Always observe and obey the instructions on all labels attached to components on your vehicle - they are there for your safety. Do not touch, remove or replace any high voltage parts. If your vehicle is involved in an accident, do not touch any high voltage wiring (identified by the orange outer sleeving), the connectors or the components connected to the wiring. ▲

California Proposition 65

**WARNING:** Certain vehicle components contain or emit chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. In addition, certain fluids contained in vehicles and certain products of component wear contain or emit chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. ▲

**WARNING:** Certain components of this vehicle such as airbag modules and seat belt pretensioners may contain Perchlorate Material. Special handling may be required for service or vehicle end of life disposal. See http://www.dtsc.ca.gov/hazardouswaste/perchlorate. ▲

Vehicle modifications

**WARNING:** The fitting of non-approved parts and accessories, or the implementation of non-approved modifications to any vehicle components, including any “hacking” of the vehicle’s software, may be dangerous and could affect the safety of your vehicle and its occupants and also invalidate the terms and conditions of the New Vehicle Limited Warranty. ▲

**WARNING:** Tesla Motors™ will not accept any liability for death, personal injury or damage to property which may occur as a direct or indirect result of non-approved modifications or the fitment of non-approved accessories. ▲

If you have a disability which requires modification to your vehicle, consult Tesla Motors before making these modifications.

Service data recording

Service data recorders in your vehicle are capable of collecting and storing diagnostic information about your vehicle. This potentially includes information about the performance or status of various systems and control modules in your vehicle such as motor, accelerator, or brakes. To properly diagnose and service your vehicle, Tesla Motors and service facilities may access vehicle diagnostic information through a direct connection to your vehicle.

Change of address or ownership

If you change your address, it is in your best interest to notify Tesla Motors so we can contact you should the need arise. Send in the “Change of Address Notice” found in the New Vehicle Limited Warranty booklet, or simply call Tesla Motors.

If you sell your vehicle, leave all original owners package materials in the vehicle to make it available for the next owner.

If you bought this vehicle used, either fill in the “Change of Address Notice” found in the New Vehicle Limited Warranty booklet, or simply call Tesla Motors.
